**Build Your Own Bar:
Product Build Sheets**

Published November 2014

The following **Build Your Own Bar** Build Sheets are the easiest way to customize your home bar. These pages are intended to be copied and filled out with each order.

As a general rule, the square boxes () are intended to be checked to indicate a selection. Circles () are intended to be marked with a letter indicating cabinet placement.

We hope this greatly simplifies an otherwise extremely large and powerful custom home bar program for you and your customers.

Build Your Own Bar System

Straight Bars, Standard

1. Select Desired Style:
